Slumdog Millionaire :

As far as I'm concerned, when reading the book by Vikas Swarup I didn't find exactly the same things as in the film though we can read about the same story. The film is totally different from the book because it's more difficult to imagine the various feelings and places. Anyway, watching a film is usually much livelier than reading the written version. But on the other hand, a film prevents you from giving free rein to your imagination and wander in a fantasy world !
